

FINAL PROJECT SUBSTANTIVE AND FINANCIAL REPORT

Sub-Grant Programme One of the UNVTF Seventh Grant Cycle

This report is to be submitted to the Fund Manager at unodc-victimsfund@un.org by the time stipulated in the grant agreement. It should cover the **entire implementation period** of the project.

Please complete ALL sections below.

If you have any questions regarding the funded project, kindly please directly write emails to the Trust Fund rather than only noting them in the report.

1. Grant holder

Name of NGO	Women, Infants and Children Care Initiative
Postal Address	5th Avenue, Inikpi Street, High level, Makurdi, Benue State
Telephone	+234 9011425852
Project Director/Manager (name and contact information)	Toriola Emmanuel +234 9065012842
Primary Contact Person (name, job title and contact information)	Doyinsola Adebayo Executive Director, +234 8034753222
Head of Organization (authorizing officer)	Doyinsola Adebayo

2. Project information

(It should be in line with Annex A of the Grant Agreement)

Project Title	Provision of protection and reintegration assistance to survivors of human trafficking in Benue state
Location of Project	Makurdi, Benue state.
Start Date	01.06.2023
End Date (when project was completed. It should NOT be later than the expiration date of the grant agreement)	29.02.224
Project Objective	i. To increase awareness of Human Trafficking in the communities by CBO and other stakeholders to prevent youths from falling victim. ii. Improved mental health for social inclusion; behavioural change/self-esteem restoration occur to women and men as a result of counselling and other activities provided for VoT. iii. Provision for the protection, medical and material needs (food, clothing, sanitary towel, shoes) of

	the beneficiaries upon arrival in the country.
--	--

3. Assessment of implementation of the project activities

3.1. Reporting period (covering the entire implementation period) <i>(It should be in line with reporting period stipulated in Article VIII and IX)</i> From 01.06.2023 (the start date of the project) to 09.02.2024(not late than the expiration date of the agreement)
3.2 Project Context (Please provide a short description of any chance in context during the reporting period, specifically linked to the project) None
3.3 Activities carried out in the project <i>(Please describe all activities which have taken place in the project as listed in the Annex A of the Grant Agreement)</i> The activities carried out in the 1st quarter include: 1. Advocacy visits to Stakeholders: WICCI project staff conducted advocacy visits to some identified key stakeholders in the State namely: National Agency for the Prohibition of Trafficking in Persons (NAPTIP), Nigeria Immigration Service (NIS), National Orientation Agency (NOA) and National Security and Civil Defense Corp (NSCDC). This was part of measure in the prevention of sexual exploitation, forced labour and other slavery-like exploitations which are as a result of Human Trafficking. The outcomes of the advocacy visits are hereby briefly described as follows: a. NAPTIP: WICCI project staff carried out an advocacy visit to the government agency on the 13/7/2023. The organization was warmly welcomed by the Zonal Commander of NAPTIP - Mrs. Iveren Bai and some other principal officers of the Agency. In response to WICCI's demand for collaboration, the agency stated that before they could fully go into collaboration with WICCI, the organization must share with them the plan of the project stating clearly what the VoT stand to gain. WICCI Project Manager, Toriola Emmanuel assured the Zonal Commander to forward the project plan to her the following day and it was as a result of those words of commitment that prompted the Commander to agree to the collaboration immediately. She promised to refer as many VoT as available to WICCI for possible assistance. Conclusively, the meeting was a successful and the Commander went further to appoint an officer (counseling and rehabilitation) who would be intermediating between WICCI and the Command during the period of the project. Meanwhile, when the Commander received the project plan the following day, she expressed her satisfaction. However, she demanded for an explanation why ONLY FIVE VOT out of the forty-five (45) VoT would be the ones to benefit in the economic empowerment activity and not all the VoT since they all have equal benefit rights. The Project Manager explained to the Commander that the project was designed that way because the main purpose of the project is to provide direct and immediate assistance to the victims and at the same time provide them with psychosocial and reintegration activities to assist them in

their communities. However, our Funder – UNODC would be informed about his concern for future consideration in their Project Objectives.

- b. NSCDC: WICCI Advocacy Team also conducted an advocacy visit to Nigeria Security and civil Defense Corps Benue State Command on the 26/7/2023. The State Commandant, Mr. Yakubu Ibrahim and other senior officers of the command welcomed the Team; it was an interactive and brief discussion. The command was overwhelmed with joy for the initiative by WICCI, stating that, the area WICCI has identify which is, women, infants and children care has been an area that needs to be given attention to. He added that the Command would support WICCI in achieving her objective; they are ever ready to respond whenever they are called upon or needed for any service. The advocacy kit was presented to the Commandant and pictures were taken. Conclusively, the meeting was a successful meeting and group photographs were taken.
 - c. NOA: On the 24/7/2023, WICCI Advocacy Team conducted an advocacy visit to National Orientation Agency Makurdi, Benue state. the organization was welcomed by the State Director Mr. Idoko Bitrus and other staff of the agency. In response to WICCI'S demand for a collaboration in creating awareness on dangers of irregular migration and human trafficking, the State director said that he understands the plight the society is facing in regards to human trafficking especially in Benue state. He therefore assured the Team of the Agency' support however, he made it clear that the Agency has no fund and as such WICCI would have to fund the activity. The Agency demanded for a certificate of registration from WICCI as a major criterion for collaboration; the certificate was submitted to them after the meeting. In conclusion, the meeting was a successful and it ended with a group photograph.
 - d. NIS: WICCI further conducted an advocacy visit to the Nigeria Immigration Service Makurdi, Benue state command of the 28/7/2023. The organization was welcomed by the DCI of the command Mr. Ibe Abuchi and other senior officers, in his response, he said they are always ever ready to welcome and support NGOs like WICCI because they understand what the society is facing and is always a priority for them to collaborate and support such organization, therefore WICCI won't be an exception. The Agency gave their assurance to always be available whenever they are needed for any service. The meeting was successful and ended with group photographs.
2. World Day Against Trafficking in Persons –
 The Day was celebrated in collaboration with National Agency for the Prohibition of Trafficking in Persons (NAPTIP). WICCI received an official invitation from NAPTIP to join the Agency and other CSOs to mark 2023 World Day Against Trafficking in Persons. One of the activities outlined for the celebration was a rally which took place on the 28/7/2023. As a major stakeholder in the elimination of human trafficking in Nigeria, the whole of Makurdi metropolitan was sensitized on the dangers of human trafficking using IEC materials (banners, T-shirt, placard etc.).

In the 2nd Quarter:

1. Conduct of an advocacy visit to OKAHA Women and Children Development Organization: WICCI Advocacy Team visited the organization on the 11th October, 2023 in Makurdi. The purpose of the visit was to solicit for their cooperation in the identification and reintegration of some of the VoT in their Shelter into their communities. The Executive Director of the Shelter, Mrs. Joy Ijuwo Aricha welcomed the Team and expressed her appreciation in recognizing her organization for collaboration in the reintegration of these Vulnerable

young women and girls in Benue State. Consequently, eight VoT were referred to us for adequate support.

2. a. Screening and Identification of victims – WICCI in collaboration with The National Agency for the prohibition of Trafficked in Persons (NAPTIP) was able to identify forty-five (45) VoT from Gboko, Goma, Makurdi LGAs who have been profiled and handed over to us by the relevant agencies and CBOs –who is the coordinating body, First Step and Ikaha Women and Children Development Organizations, WICCI organized arrival assistance to the victims to avoid being re-trafficked by their traffickers. The victims were adequately screened by the caseworkers to ensure that they are indeed victims of trafficking. The screening process was in 2 stages:

- i. The pre-interview Assessment using indicators such as: age, sex, nationality/ethnicity, last location, documentation, signs of abuse and assessment of the referring agency.
- ii. Conducting interviews, after emergency assistance has been provided, the Screening Interview Form was then applied. Best practices was followed from initial victim contact to victims' interviews taking into cognizance the organization Risk Management Plan. Decisions was made based on the evaluation of the pre-interview assessment indicators and answers provided by the victims during the screening interview.

b. Medical care with respect for and protection of the rights of VoT – The survivors were given appropriate medical attention before their admission to NAPTIP shelter: WICCI identified a private laboratory which was capable to carry out all the needed tests on the victims. However, National Agency for prohibited of trafficking in persons (NAPTIP) as a major stakeholder in the project insisted that in other to protect the image of the victims WICCI must carry out all the needed tests in a public facility, precisely Federal Medical Center Makurdi, where the organization incurred higher expenses as initially planned. The reason for this was the additional cost of obtaining hospital cards. The medical test, HIV and STD were successfully carried out on all the survivors.

c. Humanitarian assistance/Food and toiletries were provided for each of the survivor both at the shelter and those who were in their respective houses. Forty-five (45) food bags containing: rice, beans, vegetable oil, cassava flour, yam and detergent was shares among the 45 beneficiaries as emergent response to survivors' needs. The high cost of food stuff and transportation was beginning to take a toll on the general populace in Nigeria how much more on the vulnerable and the marginalized groups. There was counselling sessions to build their self-esteem and confidence. All assistance and protection to every child survivor were based on the best interest of the child.

d. Psycho-social support to survivors - We interacted with them after they have shared their experiences and the challenges they have overcome. We ensure that they were given listening ear when they were sharing the trauma they have experienced. We do this through the creation of a friendly and non-judgemental environment where they were comfortable enough to express themselves.

e. Business Management Skill Training: Some of the victims who already have skills in some vocations were advised to go back to learning centers to brush-up/improve their knowledge on the chosen vocation.

On the 14th November, 2023, WICCI organized a One-Day Business Management Skill Acquisition Training Workshop for 45 identified beneficiaries. The workshop was facilitated by Ms. Maria Okwoli from Mr. Osita Osemene, a Master Trainer by ILO, as he was engaged

with a national assignment by the Network Against Child Trafficking, Abuse and Labour (NACTAL). Ms. Okwoli gave a detailed lecture on:

- i. Goal orientation
- ii. Making business oriented decision
- iii. Taking risk
- iv. Ability to handle stress
- v. Financial literacy
- vi. The need for social support
- vii. Differentiating need from want
- viii. Importance of savings

WICCI project staff and the consultant were able to support the beneficiaries in the implementation of the selected income generating activity before the tools were handed over to the beneficiaries, WICCI introduced the victims to small-scale opportunities for their small enterprise businesses and assisted them in identifying types of income-generating activities for a better economic rehabilitation. Afterwards, each of them was presented with various start-up tools to start their choice of business or vocation in their choice of locality.

The overall objective of the training was to assist the beneficiaries to understand how to arrange their business plans for progress and success.

In the 3rd Quarter -

Monitoring of beneficiaries at the training centres and business workplaces:

The follow up with the victims after completion of the assistance provided took place in this form:

1. All the five beneficiaries were visited at their respective vocational centres to monitor their progress. Four of the VoT were enrolled for fashion designing vocation for 6 months while the fifth beneficiary was enrolled for hairdressing vocation for the same period.
2. Information of the five (5) victims have been registered on WICCI database.
3. The five (5) beneficiaries were divided into two groups based on their localities.
4. Each group of victims was assigned to two separate case workers for monthly monitoring and follow-up at their places of work.
4. The beneficiaries were aware of the follow-up plan and so, they to cooperate and make themselves available anytime they are called on phone.
5. Written reports and pictures of the victims with the caseworkers will be taken during the monthly visits (December, 2023 as means of verification) to victims' places of work/business,

3.4 Results achieved (Describe overall progress towards project goal)

(Please list all the results which were achieved through the activities mentioned above)

1. Increased understanding of dangers of trafficking in Makurdi, Benue, the need to shun irregular migration and report trafficking cases to the right authority.
2. Establishment of a solid collaboration and relationship with government agencies in the State such as NAPTIP, Nigeria Immigration Service, National Orientation Agency and NSCDC.

3. Advocacy kits were shared with the government agencies visited during the advocacy visits.
4. WICCI is recognized among CSOs e.g. First Step and OKAHA Women and Children Development Organization, and other stakeholders as a sure partner in the fight against human trafficking in Benue State.
5. Forty-five (45) victims of trafficking were successfully screened and given medical care needed for their wellness.
6. Many of the beneficiaries were very happy during the screening process as they crave for the start of their reintegration process and they promised to join WICCI in her campaign against irregular migration and human trafficking.
7. Forty-five (45) beneficiaries were given Business Skills Management Training which is needed before they establish their businesses for better management.
8. Five (5) of the beneficiaries were economically empowered after 6 months vocational training in fashion designing and hairdressing.
9. Behavioural change was observed by the caseworkers when monitoring visit was conducted to the VoT at the training centres and at their workplaces.

3.5 Lessons Learnt

(What are the main lessons learned so far? Please describe what worked well and what did not work well and explain why. Highlight key lessons that can feed into learning and planning of new projects/initiatives. Please do not hesitate to highlight how mistakes might have led to new approaches, ideas and/or results)

What work well

1. The successful engagement of the stakeholders during advocacy visits.
2. The collaboration with NAPTIP especially during World Day against Trafficking in Persons to create awareness against TiP in Makurdi City.

What did not work well

1. Screening of survivors which was planned to have commenced since July was delayed by NAPTIP and other logistics. NAPTIP is the only recognized institution solely responsible for the profiling of victims as they arrived the country. The scheduled time for the commencement of screening of victims was scheduled late - September 5th.
2. WICCI leverage on 2024 World Day against Trafficking in Persons to meet with the community leaders.

Key lessons

One of the challenges faced by the Team during the implementation of the project was the high rate of petrol/fuel which was as a result of fuel subsidy removal by the new administration of government in Nigeria (the cost of petrol is now 3times the price before May 30th 2023).

The negative implication of this action has made the cost of transportation very unbearable. However, the organization was able to manage the situation with understanding from the stakeholders and the people concerned.

3.6 Innovative methodologies

Is your project using any new/innovative methodology?

No

3.7 Number of vulnerable people/victims of human trafficking assisted by the project

*Please indicate how many vulnerable people/victims your organization has provided **substantive assistance** in this period by age and gender. Please insert number of individuals and not of families/groups of persons. Please avoid double counting.)*

Direct beneficiaries

- Number of girls (< the age of 18): 16
- Number of boys (< the age of 18): 0
- Number of adult women (≥the age of 18): 29
- Number of adult men (≥the age of 18): 0
- Number of disabled persons (provide gender/age disaggregated information, if possible): 0
- Others (specify): 0

Total number of victims your organization was able to **directly** assist: 45

Beneficiaries supported by different types of activities

- Emergency assistance: 45
- Legal assistance: 45
- Psychological counselling: 45
- Vocational training and/or access to formal education: 5
- Repatriation and/or reintegration: 45

Only applicable to previous UNVTF grantees: how many beneficiaries (mentioned above) received support through previous UNVTF grants (include breakdown, if possible): 0

Indirect beneficiaries

Total number of indirect beneficiaries (include breakdown, if possible):

- i. 5000 people (general population reached during 2023 World Day against TiP rally in Makurdi metropolitan City with other CSOs)
- ii. 180 members of beneficiaries' households shared in the emergency relief assistance given to the VoT.

3.8 Major obstacles encountered, and action taken when implementing the project

(Please describe the key issues and/or challenges that have affected project implementation during the reporting period. For each issue and challenge identified, please provide the action(s) taken to manage the issues and/or challenges.)

Challenges Encountered

1. The mobilization of local government/religious body leader was difficult due to high cost of transportation in the country as a result of fuel subsidy removal.
Likewise, those survivors of human trafficking that are living far away from Makurdi city whom are supposed to be beneficiaries of the project could not be assisted due to high cost of mobility throughout the country.
2. NAPTIP was reluctant to organize the meeting between victims and WICCI caseworkers for the screening exercise to take place but eventually agreed to make it happen on September 5th, 2023.

NAPTIP Makurdi Zonal Commandant insisted that all the forty-five (45) beneficiaries must be economically empowered otherwise, she would not comply by the project plan of empowering only 5 VoT.

Therefore, WICCI was compelled to select all the five (5) beneficiaries from OKAHA Women and Children Shelter instead of conducting the selection from both OKAHA and NAPTIP Shelters.

3. When the Project Team conducted an advocacy visit to the Nigeria Security and Civil Defense Corps (NSCDC), the PRO promised to share the photographs that were taken during the advocacy visit with our organization but did not. We were prevented from taking any pictures as it was against their protocols. However, we are still waiting to hear from the Public Relations Officer of NSCDC even after sending a reminder to the officer-in-charge.

Action Taken

1. The organization had to key into the awareness campaign during the 2023 World Day against Trafficking in order to reach the community stakeholders.
2. WICCI shared the project plan with the Commander who was satisfied with it except the economic empowerment activity of VoT. She appointed an officer to liaise with WICCI Project Manager to ensure that all the activities involving NAPTIP are successfully executed.

3.9 Partnerships and cooperation with other organizations formed while implementing the project

(Please describe any partnerships or cooperation established through the implementation of the project)

(Please describe any partnerships or cooperation established through the implementation of the project)

1. WICCI has built a strong partnership with some CSOs who we collaborated with during the screening, psychosocial, counselling and monitoring of beneficiaries at the vocational training centers.
2. WICCI and NAPTIP, together with government agencies working on human trafficking, enjoy mutual cooperation and partnership that will go a long way in stopping Trafficking in Persons in Benue State.
3. WICCI is in strong partnership and cooperation with these organizations: First Step NGO and OKAHA Women and Children Development Organization.

3.10 Resource mobilization and Sustainability

(Please describe any activities undertaken to attract additional funding for your organization/project and the results had. Please describe your organization's plan to sustain the project results beyond the project duration)

1. WICCI plans to submit a proposal to UNVTF for a grant award under the eight cycle which is likely to open for application in August 2024 – subprogramm2. This will enable us to reach more victims for reintegration assistance.
2. WICCI will continue to partner with NAPTIP and other agencies and CBOs in the fight to stop TiP.

3. The beneficiaries are in good hands (NAPTIP and OKAHA Shelters) for follow-up on their well-being and businesses.
3.11 Voices from the field <i>(Changes achieved by the project are best reflected in grantees' and beneficiaries' own words. Do you have any quote, testimony or human-interest story collected during the reporting period?)</i> We collected testimonies (voice recordings) of some of the beneficiaries which have been posted on our Instagram page – WICCI Nigeria and our website: www.wiccinigeria.org
3.12 Knowledge and Communication Products <i>(Has your project generated any knowledge or communication product that can be shared with others?)</i> WICCI has re-produced some posters and postcards for distribution during sensitization and awareness campaigns. These IEC materials were displayed by the stakeholders in the attached pictures. <i>The materials will be useful during subsequent awareness campaign against TiP.</i>
3.13 Photos <i>(Is there any photo that illustrates the change generated by the project? If yes, kindly enclose the same and share the captions for the photos below, along with photo credits, if possible)</i> All the pictures taken during the implementation of the activities were attached to this report except those pictures taken at the Nigeria Security and Civil Defence Corp office. However, the pictures of the five beneficiaries of the income-generating vocations at their training centres show that their status have changes from doing farm work to becoming prospective business owners.
3.14 Awards, special recognition and/or media coverage <i>(Has the project been awarded any prize or received any special recognition during the reported period?)</i> <i>A recognition/appreciation letter was presented to our organization by our partners: OKAHA Women and Children Development Organization and National Agency for the Prohibition of Trafficking in Persons and Other Offences (NAPTIP) Makurdi Zonal Command, in appreciation of our work towards the reintegration of survivors of trafficking in Benue State.</i>
3.15 How will the organization ensure that the activities funded through the Trust Fund are sustained after the grant period? 1. Through the already established partnership with other stakeholders like NAPTIP, NGOs and CBOs makes referral and reintegration easy. 2. NAPTIP, whose primary mandate is to protect and assist VoT is readily available to carry on the task. 3. WICCI will continue to sensitize the populace on dangers of human trafficking and irregular migration and campaign against Trafficking in Persons as this is part of what we do as an organization.

5. **Financial Report** (Please use the financial template in Excel and paste final version here)

FINANCIAL REPORT

Sub-Grant Programme One of the UNVTF Seventh Grant Cycle

The financial statement should reflect expenditures in relation to the activities funded by the UNVTF. It should be attached to the substantive report and submitted to UNODC as per the reporting requirements outlined in the grant agreement.

Name of entity	Women, Infants and Children Care Initiative
Location	Benue State
Project title	Provision of protection and reintegration assistance to survivors of human in Benue State, Nigeria.
Project duration (approved project duration is noted in Annex A of the signed agreement, or amendment where applicable)	1 June 2023 – 29 February 2024

Section One: Expenditures

	Description	Budget (USD)	Expenditures (USD)	Balance (USD)	Remarks
	<i>List all the approved budget categories and lines. They should be fully identical to the approved budget in your grant agreement (Annex B)</i>	<i>List the approved UNODC costs. They should be fully identical to the budget in your grant agreement (Annex B)</i>	<i>List the actual expenditures covered by UNVTF. Do NOT include expenditures funded by other resources</i>	<i>Any portion of the fund that is unspent shall be fully returned to UNODC within thirty (30) days of the expiration of the grant agreement</i>	<i>Explanations on major deviations. Any deviations exceeding 10% on any budget sub-heading (e.g., 1101, 1102, etc.) shall be subject to prior consultation with and written approval by UNODC.</i>
	1101 Staff and other personnel costs	Costs for staff who will contribute directly to the implementation of the project.			

Project Manager	1980	1980	0	N/A
Caseworkers	1980	1980	0

The Executive Directive

Women, Infants and Children Care Initiative (WICCI)

APPRECIATION LETTER

The entire Management Team, Staff, Volunteers and Survivors of Okaha Women and Children Development Organization sincerely appreciates the Executive Director of Women Infants and Children Care Initiative (WICCI) for impacting knowledge and skills to the vulnerable victims of Human Trafficking we nominated to you for professional training as Fashion Designers and Hair Stylist.

2. We cannot forget the invaluable support you have given to them. You did not only support and care for them, you further extended their learning period to enable them learn well.
3. We are greatly indebted to you for your sustained support and assistance which saw the learners graduate successfully. You have contributed to the overall goals of OWACDO. You are an avowed supporter of humans and economic development of women and girls within Benue State and beyond.
4. We assure you of our continuous partnership as we commence the journey towards the task of training a new set of survivors this year 2024.

Joy A. Ijuwo (Mrs.)
Executive Director
OWACDO

BOARD OF TRUSTEES:

Dr. Mrs. Christie Anyogo, Chief Mrs Victoria Esa, Barr. Naomi Ogoh-Okpara, Mrs. Eunice O. Ibu, Mrs. Joy Ijuwo

NATIONAL AGENCY FOR THE PROHIBITION OF TRAFFICKING IN PERSONS

NAPTIP/MKD/C&R/1

(NAPTIP)

29th January, 2024.

The Executive Director
Women, Infants and Children
Care Initiative (WICCI),
Equity for Development.

Dear Madam,

RE: REQUEST FOR A RECOGNITION/RECOMMENDATION LETTER

I write to acknowledge receipt of your letter dated 18th December 2023 on the above subject.

2. The Zonal Command also wishes to acknowledge with appreciation the receipt of food items donated to the shelter and the activities conducted in our Command during the direct assistance to survivors of human trafficking project in Benue State implemented in collaboration with our command as follows:
 - i. Screening and identification of survivors;
 - ii. Conducting of medical test for survivors;
 - iii. Business management skill training;
 - iv. Distribution of food items and other items like sanitary towels and detergent.
3. Your thoughts and kind gesture went a long way in putting smile on the faces of our survivors. The Zonal Command looks forward for more collaboration in the area of victim's protection and assistance with your organization.
4. While thanking you for your support in the fight against Human Trafficking, please accept my high consideration and esteem.

Bai Gloria Iveren (Mrs.)
Zonal Commander,
